

Elephants do not live in zoos. They die in zoos.

7 baby elephants died before their 1st birthday

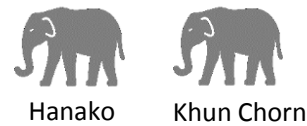

Sold to private buyers; dead

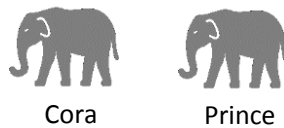

Sold to unspecified buyers; believed to be dead

Shipped to other zoos

Sold to Ringling Brothers Circus

Shipped to other zoos; dead

Sold to circuses; dead

Euthanized at the Oregon Zoo

Facts on the Oregon Zoo's Elephant Program

- Visitor counts peak whenever baby elephants are born
- Rape racks ('*Elephant Restraint Devices*') are used for forced breeding
- Packy was forced to breed with his sisters – Hanako & Me-Tu
- Lily was owned by a rental company when born; was later sold to the zoo
- Sharp, painful bullhooks ('*guides*') are being used on the elephants

*In the Oregon Zoo, Asian elephants die by age **24** on average. Shine, at **34**, is the oldest, and suffers from foot disease. In the wild, they do not contract the disease, and live up to age **70**.*
